

# INTERNET RADIO

## Enjoy live radio service on your mobile phones

This month, Tata Indicom has introduced the mobile Internet radio, with live streaming radio-casts in English, Hindi, Telugu, Tamil and other international languages with MP3 quality sound.

Called Cell Radio Links, this BREW application from the US-based Locate-It Info Inc, offers a bouquet of 41 choicest and globally renowned International and local radio stations to showcase the best of Internet Radio, making it possible for Tata Indicom users to enjoy a differentiated radio service on their phones.

Once tuned in, customers can listen to streaming audio via its speaker or via a wired headset, set the volume, stop and return to the links menu.

### Special Features of Internet Radio from Tata Indicom

- Links to live world radio-casts in English, Hindi and other International languages.
- Supports 41 International & local radio stations offering streaming content, including Bloomberg, BBC, CNN, Fox Radio and Seattle WM.
- MP3-quality sound.
- Application times out after 10 minutes of continuous listening for incoming call check.

The Internet Radio application is available on following handsets:
